

7-23-88

Dear Edward & Helena:

Thanks for getting me the poop on the tankless water-heater. When it arrived, I had no idea that you were behind it; I thought it was quite a coincidence. Anyhow I saved it for future action and have it. I'll probably get one at such time as our own heater appears inadequate (which it often does). I still have to check on comparable costs of tank heaters & heat losses.

Enclosed are some shots (duplicates for you) of the idls. Several are rather good, I think. The storm unfortunately appears more like haze than ~~that~~ down-pour, except for the rain gutter.

Still have delicious after glow from our visit.

Love,
Bob
